

# AdInsure Policy Administration

AdInsure Policy Administration is a modern, web-based solution that streamlines the entire policy lifecycle, from product setup and sales, to underwriting and renewals. Designed for private and commercial insurers, it delivers a robust, configurable system that meets diverse business needs.

## FEATURES OVERVIEW —

### Streamline policy administration with a modern PAS platform

AdInsure PAS delivers a unified and flexible solution that combines rich features, advanced automation, and low-code configuration tools to support insurers in handling complex insurance operations with ease.

#### Product design

Configure products faster with reusable templates and low-code tools.

#### Dynamic quoting

Generate quick quotes with minimal data, and full quotes with dynamic underwriting and side-by-side comparisons.

#### Automated underwriting

Automate underwriting with complex rules, enable straight-through processing, and trigger tasks only when needed.

#### Endorsements and renewals

Automate renewals and manage endorsements with built-in business rules.

#### B2B digital tools

Boost sales with portals for quoting, servicing, renewals, and managing sales activities.

#### BI and reporting

Gain insights into policies, underwriting, and distribution with dashboards and reports.

#### Rating engine

Easily manage rates, rules, and algorithms, with advanced methods for precise, flexible pricing.

#### Distribution management

Manage channels, partners, and commissions with flexible, scalable tools.

## POLICY MANAGEMENT —

### Ready-to-use tools for the entire lifecycle

From quotes to seamless distribution across channels, AdInsure PAS delivers built-in capabilities that let insurers manage the entire policy lifecycle with ease

## CONFIGURATION —

# Easily configure your complete sales process

AdInsure Studio, the AdInsure platform's low-code/no-code tool, provides powerful configuration capabilities that give insurers complete control over sales and policy management

Configure premium and underwriting rules

Design workflows

Edit user interfaces

Manage authorizations

Build and adjust data models

Configure object type

Define and configure business rules

Create risk questionnaires

## BENEFITS —

# Transform faster, operate smarter

### Faster product launches

Launch new products faster with low-code design and configuration tools.

### Greater efficiency and lower costs

Cut manual work and reduce costs by automating quoting, underwriting, renewals, and endorsements.

### Agility to adapt

Adapt quickly with flexible rules, workflows, and rating logic, without heavy IT support.

### Seamless integrations

Easily connect with third-party data sources, portals, and reinsurance systems via APIs.
